

**Our metal door frames  
are not just door frames,  
but AussieFrames.**

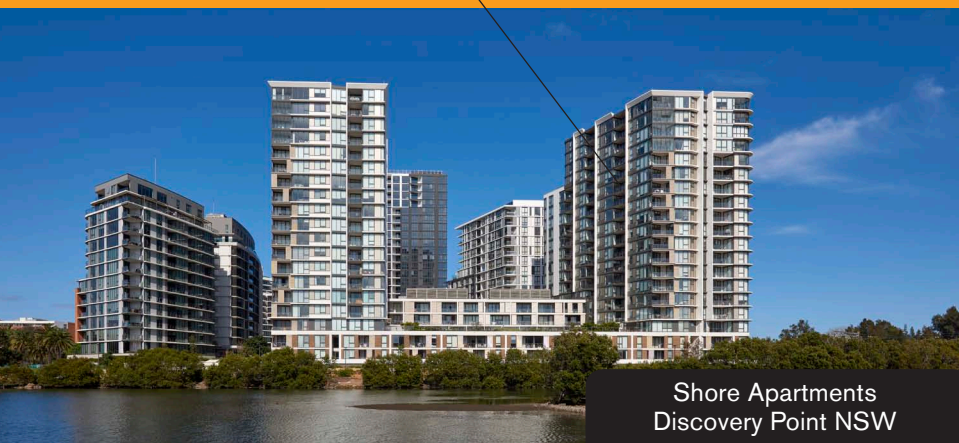

**PRO** industries  
professional • reliable  
• on-time

# Professional. Reliable

At Pro Industries we pride ourselves on the high quality, consistency and accuracy of our metal door frames. Every day on our Sydney premises we manufacture our door frames in accordance with the best principles of sheet metal work. We only use Australian steel and comply with the highest standards.

However we're more than just a supplier of metal door frames. We've invested heavily in the acquisition of modern CNC and automated equipment and this allows us to offer a range of services including: ☐ Design ☐ Prototypes ☐ Guillotining ☐ Punching ☐ Folding ☐ Rollforming ☐ Spot Welding ☐ Mig Welding ☐ Priming Shop ☐ Customised Solutions.

As Australia's leading manufacturer of Metal Door Frames, Pro Industries can fulfill any order you may have. Our team can design and produce door frames for building projects across a number of sectors including:

- ☐ Commercial ☐ Residential ☐ Hospitality and Retail
- ☐ Hospitals and Aged Care ☐ Education ☐ Entertainment.

So whether it be a Standard Frame or a customised Architectural Frame, you deserve the exceptional service and the expert technicians that can only be found at Pro Industries.

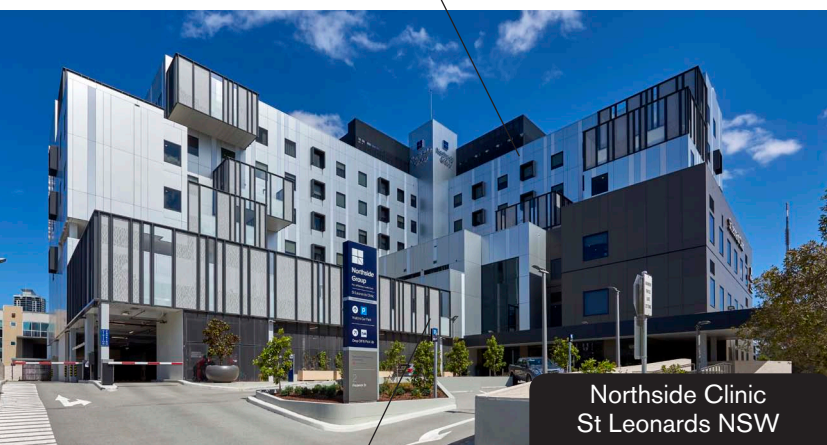

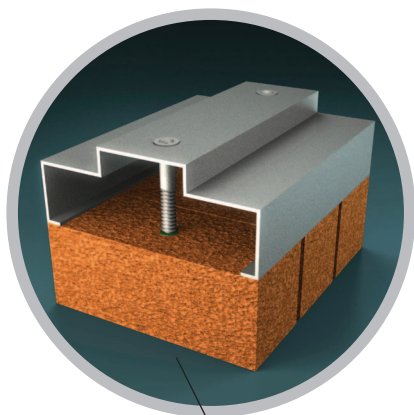

***Demonstrating expertise  
and efficiency across all projects  
no matter how big or small***

## Standard Frames.

Engineered to perfection, our Standard Frames are strong and require minimal or no maintenance at all – perfect for high traffic locations across residential and commercial projects.

Our Standard Frames are:

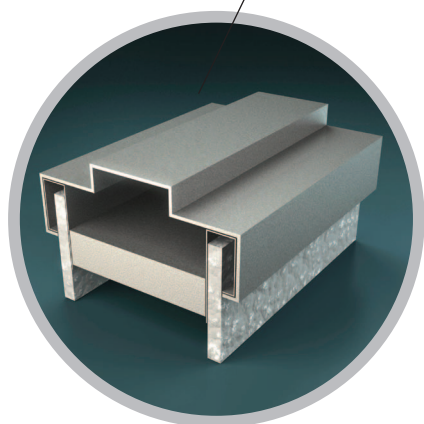

- Ideal for both standard door applications as well as those with fire, acoustic and customised requirements.
- Mainly used for standard masonry and drywall applications.
- Manufactured from 1.1 mm BMT and 1.4 mm BMT zincanneal.
- Supplied ready to accept any applied painted finish and with everything you need for fast and easy installation.
- Supplied in knockdown form or assembled.
- Available to order/manufacture in bulk, making our frames affordable and helping you to remain within budget.

## Architectural Frames.

Cut from a sheet and manufactured to suit any frame shape or size, our Architectural Frames are ideal for that highly specialised project where you require more than the Standard Frame.

Our Architectural Frames are:

- Perfect for both residential and commercial projects.
- Manufactured from 1.1 mm BMT to 3.0 mm BMT, from either zincanneal, galvanised steel or various grades of stainless steel.
- Used in specialised masonry and drywall applications.
- Supplied welded, dressed and primed.

***Experience an unrivalled level of technical and design expertise***
